ACADEMY WINS WITH 20 RUNS

Scores with Ease on Centrals-Gallivan a Puzzle to the Losers-Windham A. C. Puts On Good Card of Boxing and Wrestling-Cleveland Leads the American

The Centrals of the City league were mercilessly slaughtered on the Academy campus Wednesday afternoon, 20 to 3 by Capt. Tommy Hendrick's fast N. F. A. steppers. For seven innings it looked like a shutout for the Centrals, who could not find the offerings coming up from Jackle Gallivan in the box, but Walsh tore off a hit through Murray's glove in the seventh, sending in Counthan, who had also gained his base on a safe drive.

Jack Kane was doing the twirling for the Centrals, but with none of his near hypotherials, but with none of his in the first inning. But not before the Academy boys had fallen on him for five hits, and received the assistance of four passes and a couple of errors, amounting altogether to 8 runs.

There was another batting session for the Academy in the fourth Inning, when five hits, two errors, and a batter hit added five more runs. A three baggers by Noyes which cleared the bases was the feature of the inning.

Gallivan was in his most deceptive form, fanning eight and scarcely allowing a ball to be hit outside the diamond. After working seven imnings in which he held his opponents to give Champion, one of the recruit pitchers, a chance to show his wing. The new man worked cleverly and cool and would not have been scored upon but for two passed balls by Catcher Ricketts.

A perfect throw by Blackburn from center field, nipping the runner at the latter was a consplicuous point in the latter was a consplicuous point

Ricketts.

A perfect throw by Blackburn from center field, nlpplng the runner at the plate was a conspicuous point in the fielding performances, and Crowe handled a number of wide throws to first in good shape. Captain Hendrick fumbled too much at short stop early in the game, but hung on to everything at critical times later. Murray and Paul Ricketts both hammered the ball for doubles, while the Academy showed some good timely hitting.

The following are the returns from the plotting board:

Tommy Hayden of the Eight Bells company performed in a capable manner as judge of the plays, but had to suffer considerable undeserved roasting from the losers.

STOCKS WEAKER.

Pereletent Selling of U. S. Steel Was

New York, April 20.—Specific causes were not clearly perceptible for the weakness of stocks today. The demand was apathetic, as it has been since the opening of the week, and demonstrated the failure of last week's concerted rise in prices to awaken any general outside interest in the market. Speculative holders of stocks have been inclined to reduce their lines ever since. The bear party in the speculation takes advantage of this situation to offer prices down and thus take the market away from the would-be sellers. Occasional buying from the bears to realize profits by covering shorts constituted the principal demand at any time today, but prices ended at the lowest.

The weakness of the metal stocks

stituted the principal demand at any time today, but prices ended at the lowest.

The weakness of the metal stocks was conspicuous but tids was in accordance with the special strength shown by that group last week. Their leadership in the decline was accompanied by unfavorable rumors, some of which were simply contradictions of others which had been used to help on the previous advance in the stocks. The persistent selling of United States Steel was of notable sentimental effect on the general market. The dealings in steel in fact, made up a large proportion of the aggresate. Estimates of the earnings for the first quarter, to be reported at the directors meeting next Tuesday, accompanied the selling. Assertions that the total would fall below the \$40,000,000 total of the December quarter seemed to discourage the holders of the stock, though the lull in trade activity which occurred after the first of the year has been well known. A consequence of the new view of these facts was to throw doubt on previous confident expectations that the dividend is to be placed on a five per cent. basis next Tuesday. The coppers were even weaker than steel and were affected also by the felling price of the metal. The movement to reduce the output of pig fron coupled with the advocacy of curtailment of copper production implies an unhealthy condition in those trades which militates against the strength of the stocks.

The additions to the gold export movement during the devergers at the strength of the stocks.

healthy condition in those trades which militates against the strength of the stocks.

The additions to the gold export movement during the day were an influence towards depression, though no direct effect was perceptible in the tone of the money market. Rates for call loans, in fact, were somewhat easier, and the demand for time loans also is reported to be almost stagnant. Discount rates were firmer in London and it is to that center that attention is directed for money market influences. The excess into which the dealings in rubber shares has run in London is the subject of anxiety throughout the financial world. The system of deferred settlements on which stock dealings are carried on in London puts forward the obligations which are being recklessly incurved for innumerable new rubber plantation shares which are coming out in London and are rushed up to sensational premiums in a few hours dealings. An ultimate crash and heavy losses are considered inevitable.

Bonds were heavy. Total sales, par value, \$1,960.000. United States bonds were unchanged on call.

STOCKS.

FINANCIAL AND COMMERCIAL

which includes teams from Norwich, New London, Willimantic, Rockville and Middletown.

Meriden is on the schedule and the assignment of games has been made. Meriden is the only city that has not as yet reported what grounds have been secured for the league games. Messrs. Downs and Bates, who will navigate the team, will have a conference tonight with the Meriden men interested in a team.

The above agrees with what the Middletown men, Messrs. Fisher and Burdick, said when they were present at the league meeting in this city. They expected that Messrs. Bates and Downs would run the Meriden team if one could be placed in that city. Messrs, Bates and Downs were both formerly connected with the Middletown asylum team. Bates is the crack-a-jack pitcher who has twice defeated the Norwich hospital team.

The Meriden Record goes on to say; Pitcher Bates, will be chosen manager of the new team, and Second Baseman Downs will be the captain. Twelve men will be assigned to the Meriden team. Dunlap of Meriden, shortstop, who is warming up with the Holyoke state league team, will play if he finds he cannot get the position he is after on the Holyoke team. Gorman, now in Providence, is another player who will return to Meriden. Others ready to play are: Buckley, catcher: Joyce, pitcher; Cadotte, third

player who will return to Meriden. Others ready to play are: Buckley, catcher: Joyce, pitcher: Cadotte, third base: Harney and Pete McKenna, outfielders: Downs, second base: Bates and Bollit will be on the pitching staff with Joyce. There are five other Meriden players under consideration. In preparing the schedule, Meriden is favored with seven home Saturday games and is assigned two games each week, home and abroad. The first two days of the week are left open for exhibition games, is the teams care to

But Newsboy Unruffled by Shower of Blows from Thread City Man.

(Special to The Bulletin.)

Willimantic, April 20.—A big crowd was in attendance at the Windham A. C., this evening and was well entertained with a wrestling and two boxing matches. The first preliminary was a wrestling match between Kid Connell of this city and Young Bullock of Mansfield. Connell won in straight falls in 15 minutes 29 seconds and 3 1-2 minutes, respectively.

The second was a five-round sparring exhibition between Jack Day of South Coventry and Harry Denman of this city, as Buck Falvey of New London failed to appear. There was much interest in this event, and the amusement provided was more varied than at most comic theaters. Day showed that he lacked schooling in the fistic art, but his friends applauded him royally.

The main event was an 8-round bout between Abe the Newsboy of New London and Frank McLean of this city. The going was fairly fast for the first four rounds, and they were McLean's on points by long odds. The fifth was a bit slow, the sixth and seventh were also McLean's and the cighth was about an even thing. Abe could not stop McLean, but the latter was unable of hand the Newsboy anything that he could not carry off with unruffled mien. The blows that McLean showered upon him had apparently no more effect than dreps of water upon a duck's back. Abe's strong suit was his body blows, delivered at short range. Shaun Sullivan refereed and William Mallon kept time. McLean refereed the wrestling match.

Shaun Sullivan and Abe the Newsboy are matched for this city two weeks hence.

AN UP-TO-DATE STOVE Do you realize there is no longer any reason why you should use a coal range? Oil is cheaper than coal; it is lighter and easier to handle, and gives an intense

heat. Provided you have the right stove, oil is more economical, cleaner and less trouble. Have you seen the New Perfection Oil Cook-stove

The accompanying illustration gives you only a rough idea of its appearance. You really can't appreciate it until you either use it yourself, or talk to someone who has used it. It does everything that a coal range will do except heat the room. The New Perfection Oil Cook-

Stove will do enything, from heafing a kettle of water to cooking a course dinner, but it won't heat a room. It doesn't "smell," it doesn't smoke. It can't get out of order. Light it and it is ready. Turn it down and it is out. Only a woman who knows the trouble of carrying coal and cooking in a hot kitchen can appreciate what it means to have a clean, perfect stove that will cook anything, boil, bake or roast, and yet won't heat the hitchen. How is it yet won't heat the intenent.

done? The flame is controlled in turquoise-blue ename! chimneys, and directed against the bottom of pot, pan, bettle or over, and only there. The kettle or oven, and only there. The flame operates exactly where it is needed and nowhere else. With this stove your kitchen is cool. The nickel fraigh with the bright blue

of the chimnoys makes the stove orna-mental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet. Standard Oil Company
